\$FAITH is a super utility token, exchangeable with every DAO token in the club. Token holders can exchange **\$FAITH** for all products and services provided by the DAO ecosystem, including villages, cities, and other real world projects. For example; swap **\$FAITH** for Starseed Village **\$LAND** tokens to buy land in a global network of regenerative villages.

The background is a detailed, golden-hued illustration. It depicts a large, ornate cathedral-like structure with many tall, narrow arched windows. Through these windows, bright vertical beams of golden light shine down. In the center, a massive circular opening reveals a vibrant, swirling galaxy with blue and purple nebulae. The words "DAO UNIVERSE" are faintly visible in the center of this galaxy. In the foreground, a group of silhouetted human figures stands on a dark, curved surface that resembles the horizon of the Earth. Some figures have their arms raised towards the light. The landscape around them is rocky and features several acacia-like trees. The overall atmosphere is one of awe and spiritual aspiration.
